

**Be smart.  
Save money  
with USI.**

**USI**

Utility Source Inc.  
Insight is Power.

## **ESSENTIAL ENERGY QUESTIONS:**

If you answered "No" to any of these questions, you could be losing thousands of dollars every month.

- ✓ When it comes to energy contracting, do you know if the lowest price is really the best option?
- ✓ Do you have a way to scrutinize your invoices for irregularities, track energy consumption and accurately forecast the costs?
- ✓ When you see energy cost changes, do you know why they are happening?
- ✓ Does your energy management program actually pay for itself?
- ✓ Do you have the expertise to develop and apply models to accurately assess savings claims?

# WHO IS UTILITY SOURCE?

We are experienced energy experts backed by an analytics team and a process that helps you save money and reduce demand. We have a long, well established reputation and pride ourselves on conducting high integrity, fully transparent transactions.

## THE USI EMP (Energy Management Program)

A structured and measured approach to achieving the most competitive price on energy, along with data-driven energy demand reduction strategies.

### COMPETITIVE ENERGY PROCUREMENT

Our RFO results in a Summary of Offers where we coordinate multiple, live offers and conduct a comparative analysis.

### BUDGET FORECASTS

Energy Cost Estimates and budgets leverage our financial models with your data, ensuring decisions that are focused on financial impact and accurate budgeting.

### ENERGY MARKET ANALYSIS

Energy Market Updates eliminate the knowledge gap between energy retailers and you, interpreting energy market trends to help establish procurement strategies based on your risk profile.

### ENERGY BENCHMARKING & CUSTOM ANALYSIS

You can't manage what you don't measure! Our Energy Report Card tracks and improves energy performance, and helps assess and prioritize potential energy retrofits.

### ENERGY AUDITS & DEMAND REDUCTION

Use our energy management engineers to produce a comprehensive Energy Assessment Report that provides a clear scope of energy use and identifies energy savings initiatives.

# WHAT SETS US APART

We take a detailed view of your energy expenses through an analytical lens, something our competitors won't do. We not only save you money and help improve your energy performance, we protect you from being taken advantage of by service providers.

## Leveraging our insight is smart energy expense management

Working with Utility Source gives you:

- ✓ The confidence and peace of mind knowing you have a structured and continuously managed approach to handling energy expenses
- ✓ The backing of a highly experienced team of energy professionals dedicated to representing your best interests with energy retailers and service providers

- Access to analytics services and
- ✓ decades of industry experience that can be leveraged to maximize savings
